

THANK YOU FOR VISITING THE ATLANTA PICKLEBALL CENTER

Important Policies, Procedures and Notifications

(Updated June 18th, 2024)

To Any Group Entering The Courts Or Surrounding Areas

For Your Safety, The Safety Of Others, And To Protect The Facility

- Before entering the court area, every person must sign an APC waiver at the front desk or event check-in area if you have not previously signed one
- Always be aware of your surroundings and people on or near other courts
- While we have taken every effort to protect players from accidents, be cautious of electrical boxes and fire hydrants on the side walls and avoid contact with the poles and court barriers
- To avoid spills, stains, or possible hazardous playing conditions, food of any kind may not be consumed on the courts, and beverages need to be in a container with a lid
- Glass containers of any type are not allowed
- Any tables for food or drinks must be set-up against the wall to the right of courts 1, 4 and 7 and not on the courts
- Ball containment barriers on the sides or ends of the courts must not be moved. Fans or picnic tables may not be adjusted without first asking an APC employee
- If you are part of an event or running a tournament, please take out any items that you bring in. There is a blue waste container in the corner of the parking lot for trash
- Individuals or the entity they are associated with will be financially responsible for damages to the courts, nets or any facility equipment. Please report any damages, along with your contact information, to the front desk
- Be aware: APC is housed in a warehouse. While the temperature in and around the courts is almost always lower inside than outside during warmer months, the humidity can be higher. Ensure you are hydrated before you play, in-between games, and after play
